Steve updated the Committee on the timeline for the institutional budget process for FY18. The Executive Team is currently in the process of reviewing and prioritizing requests and needs. The budget workshop is scheduled for May 16 at 9:00 to review a preliminary budget. The Budget and Finance Committee meeting is scheduled for May 25 at 10:00 at which time the Committee will be presented a budget reflecting feedback from the workshop, which will be brought to the full Board at the June 5 meeting.

Steve briefed the Committee on the potential impact of a proposed rate increase by the Insurance Reserve Fund as a result of Hurricane Matthew and the October 2015 flood. The additional cost to the College is estimated at $215,000.

Steve noted several items that will likely impact the budget for 2017-2018. They include the increase in retirement contributions, Promotion / Tenure and Post-tenure review, Directors and Officers Insurance, an increase in rates by the Insurance Reserve Fund, the QEP, Veterans / Dependents Waivers, and the Collegiate Recovery Program. Additionally, there is a pending proviso that would give a $500 bonus to employees making $50,000 or less. The estimated fiscal impact to the College is $252,000. This would be a non-recurring expense. The current Senate version of the budget bill includes $500,000 in recurring funds for the College.

Steve noted that the BEA reported revenue, through March, is running a deficit of $61M year-to-date. However, it is believed that this may be a timing issue and it is expected that revenues will meet predictions by fiscal year-end close in June.

Trustee John Wood presented the following committee report:

Current Capital Projects Update:
Monica Scott provided a brief update regarding current capital projects:
- **Rita Hollings Science Center** – Construction is approximately 67% complete. Expected completion date is June 23. Key for the bridge program, among other needs on campus. Most facets of the move back into the building have been scheduled.
- **Simons Center for the Arts** – Phase two will be submitted in Summer 2017.
- **176 Lockwood Drive** – Due to be finished and occupied this summer (July/August 2017). Will house the Riley Center, Procurement Office, and Controller’s Office. The Riley Center will need to vacate 284 King Street by the end of the summer.
- **14 Greenway** – Will house the Office of Sustainability. Will be finished and occupied summer 2017. The Office of Sustainability will need to vacate 284 King Street by the end of the summer.
- **133 Calhoun Street (Physical Plant)** – Pre-construction contract is being negotiated.
- **Avery Research Center Upgrades** – Mainly mechanical upgrades and some exterior work. The low bid was 40% over the projected estimated budget. We will need to regroup and look at our options going forward.
- **McConnell Hall HVAC Systems Replacement** – The project is broken into three phases. The second phase includes putting equipment on the roof. Construction for phase two is estimated to be completed over the winter break 2017. Phase three is estimated to take place over summer 2018 and will include piping work and interior upgrades.
- **McAlister Hall** – Project includes HVAC and some interior/exterior painting and cosmetic work. Project will be underway in summer 2018.

New Business
- **State Capital Improvement Bond Bill (Silcox Center Renovation and 58 George Renovation)** – The House will take this up hopefully next week. If not, it will carry over to next year.
- **Facilities Condition Report** – Paul Patrick provided an update on the condition of the College’s facilities.

  Overall, it is fair to say the condition of the E&G facilities are in better shape than the residence facilities. There are some E&G facilities, however, that are at greater risk:
  - Stern Center has mechanical systems that are difficult to manage. The pool wing is currently unused.
  - A few of the historic homes need maintenance work – 58 George Street, 123 Bull Street, and 13 Coming Street.
  - The Political Science offices at the corner of Coming Street and Wentworth Street experience flooding issues.
  - Sottile Theatre has some safety issues with the stage and also rigging system.
  - Simons Center for the Arts has mechanical issues but there is a plan in place to create a solution.

One solution to help with maintenance include hiring third shift personnel. Another solution includes outsourcing some of the deep cleaning of residence halls that take place over the summer break. Campus wide, we are working on the organization structure of the Physical Plant and are in the process of recruiting the Deputy Director position.
The Committee went into Executive Session for discussion of contractual matters. No action was taken in Executive Session.
