WELCOME AND INTRODUCTIONS:
Chair Padgett welcomed everyone and briefly introduced new employees. Detailed bios can be found behind Tab II of the Board Book.

He welcomed new employees Kristi Brian (Director of Diversity Education and Training) and Jim Posey (Associate Vice President for Institutional Research and Planning).

Also, he thanked Greg Fisher from Information Technology for being available to assist anyone with IPAD/technology issues.

And finally, he welcomed other staff members joining us today – Jimmie Foster (Director of Freshman Admissions) and Anne McNeal (Director of Student Retention).

PORTRAITS UNVEILING:
Chair Padgett announced that the Board continued its tradition to honor past Board chairs by producing portraits of Marie Land and Bobby Marlowe. He noted that privately raised funds were used to pay for these portraits.

Michael Del Priore, one of the country’s most prominent portrait artists, unveiled the portraits, which will be displayed along with the other Board Chair portraits in the Randolph Hall Boardroom. Chair Padgett thanked Marie and Bobby for their service as Chair of the Board of Trustees, and Mr. Del Priore presented each with a sketch of the portrait.

APPROVAL OF MINUTES:
It was moved by Trustee Marie Land, and seconded by Trustee Frank Gadsden, that the minutes of the October 14, 2011 Board Meeting be approved. The Chair called for the yeas and nays, and the Minutes were unanimously approved by voice vote.

PRESIDENT'S REPORT:

Bonus Program:
First, President Benson thanked the Board for its support of the Bonus Program implemented at the end of last year. The program provided for one-time, performance-based bonuses for permanent faculty and staff that have worked at the College for more than one year and earn less than $100,000. President Benson noted that he has received numerous thank you cards and letters from grateful faculty and staff. Investing in the faculty and staff is one of his top priorities, and it remains a top priority in the Revised Strategic Plan.
**Legislative Reception:**
President Benson thanked all Board members who attended the annual legislative reception for members of the General Assembly on January 11 at the Summit Club in Columbia.

Also, President Benson informed the Board that he will make his annual presentation to the House Higher Education Subcommittee on Wednesday, January 25, to present the College’s budget requests for the 2012-2013 fiscal year.

**Sports Broadcasting and Production Capabilities:**
Last semester, the College entered into a groundbreaking television production and distribution arrangement with the Southern Conference, ESPN3, and local affiliates MY TV Charleston and Fox 24. Under the College’s prior contract with Comcast/Charter Sports Southeast, the College had to pay for many of its games to be televised.

In late November, the College became the first school in the Southern Conference to purchase its own production van. The College is now able to produce and broadcast its own sports programming on location. Eventually it is the plan to broadcast other C of C sporting events, including volleyball, baseball, and soccer.

**CARTA Ridership at C of C:**
President Benson joined Mayor Riley at a press conference last week to encourage more use of CARTA’s many great options.

The College offers the CARTA bus service at no charge to students and employees.

The College first began partnering with CARTA in 2003 to allow College students and employees to ride the DASH shuttle between campus and the South Carolina Aquarium parking garage. This arrangement enabled the College to relocate about 20% of campus parking permit holders to the perimeter of the downtown peninsula.

In 2007, the College expanded its partnership with CARTA through CARTA Express, which caters to commuters from West Ashley, James Island, Mt. Pleasant, North Charleston, Summerville, and other areas.

In 2011, the campus community accounted for over 66,000 rides on the Express service, roughly 127 riders per day, which helped to reduce the demand for parking permits by 7% and ease traffic congestion on the downtown peninsula.

**National Spotlight on C of C for GOP Primary:**
With the South Carolina Republican Presidential Primary approaching on Saturday, the College has served as a debate and campaign venue over the past couple of months.

The Department of Communication Bully Pulpit Series has brought a number of candidates to campus, including former Utah Governor Jon Huntsman on November 2, and yesterday, Congressman Ron Paul campaigned in the Stern Center gardens.

On November 28, the Bully Pulpit Series and Congressman Tim Scott co-hosted a town hall meeting with Former Speaker of the House Newt Gingrich at the Sottile Theatre. President Benson
introduced both Newt Gingrich and Tim Scott. CNN had a live broadcast from Randolph Hall before the event.

On January 14, former Arkansas Governor Mike Huckabee filmed his Fox News Show, “Huckabee,” in the Sottile Theatre, 8:00 – 10:00 p.m. He conducted one-on-one interviews with most of the candidates. President Benson welcomed the group and introduced Governor Huckabee. Five of the six candidates participated – Ron Paul did not attend the debate.

The Southern Republican Leadership Conference is being held through Sunday at the TD Arena. Yesterday, President Benson introduced former Republican Presidential candidate Herman Cain at the conference.

At 1:00 p.m. today, Stephen Colbert will be on campus to film a segment for “The Colbert Report” in the Cistern Yard. The segment will air on Monday night at 11:00 p.m.

And finally, this evening, CNN is broadcasting “Erin Burnett Outfront” at 7:00 p.m. behind Randolph Hall and “Anderson Cooper 360” at 8:00 p.m. in the Cistern Yard.

Revised Strategic Plan; Diversity Strategic Plan; Facilities Master Plan:
President Benson reported that this is an important year for the College and its future. Yesterday and today, the Board has considered three documents – the Revised Strategic Plan, the Diversity Strategic Plan, and the Facilities Master Plan. These three plans, if fully implemented, will dramatically improve and strengthen the College. President Benson told Board members that he is interested in their feedback regarding how to improve the plan and align it with the evolving needs of the College and of South Carolina.

The Board had an opportunity to review the College’s first-ever Diversity Strategic Plan. This plan is the logical next step to live out the diversity principles announced in the College’s Strategic Plan. Working together, President Benson believes we can take a series of steps that will produce measureable and significant improvements in the diversity of our entire campus community.

Chair Padgett thanked everyone for their work on the Diversity Strategic Plan. He reiterated the importance of feedback from Board members to help strengthen and enhance the plan. The Board will discuss the Plan at the April Board meeting.

President Benson noted that the Board will have an opportunity to discuss the Facilities Master Plan at greater length after hearing the Facilities Committee Report.

Advancement Update:
President Benson noted that Marie Land will provide more details in the Institutional Advancement Committee Report later this morning, but he wanted to highlight a couple of strong indicators in the College’s fundraising efforts.

The College has just completed another consecutive year of significant growth in philanthropy. In 2011, over $10 million in total new commitments was raised. This represents more than an 8% increase over 2010.
Another important barometer, particularly as we continue to build momentum heading into our national comprehensive campaign, is annual giving. In 2011, over $2.5 million in cash through the College’s 12 annual giving funds was raised. This represents an increase of nearly 18% over 2010.

CPQE:
Last year, as President Benson previously reported, the College’s new Comprehensive Program for Quality and Efficiency (CPQE) resulted in over $900,000 in recurring annual savings. Success in this area is a credit to the hard work of the Executive Vice Presidents and their teams.

The CPQE will become a permanent part of the College’s culture. For this year, however, as we anticipate a major review by an outside consulting firm, the CPQE process has been slowed down so that the College’s resources can be directed to support an external study.

Dixie Plantation:
President Benson referenced an article by Diane Knich in The Post and Courier on Tuesday regarding the College’s progress at Dixie Plantation. He reported that the 4.3-mile nature trail on the property has been completed. The trail includes interpretive signage highlighting the property’s many natural assets. The next phase will include the conversion of the old barn into air-conditioned meeting and classroom space and also the development of two field research stations for use by the faculty and students.

Lowcountry Graduate Center/North Campus Update:
Provost Hynd reported that a search is underway for a dean for the North Campus. Eighty-four applications have been received.

Also, he reported that the College has signed a Memorandum of Understanding (MOU) with Clemson University to develop the S. C. Historical Magazine. He thanked Dan Ravenel and David Cohen for their efforts in working to form a partnership with the S. C. Historical Society.

Office of Economic Development:
President Benson reported that in November, the College announced the establishment of the Office of Economic Development. This new office will work to promote economic development in the Lowcountry and throughout South Carolina by providing academic and service activities in support of new and existing businesses. The Office will be led by Bobby Marlowe.

Boeing Update:
Bobby Marlowe updated the Board regarding the College’s relationship with Boeing. He reported that the College awarded the first Boeing Scholarship this semester.

Over 2,000 Boeing employees have participated in the College’s orientation program. Boeing signed an extension for six months, and the orientation program will become the model for its employees.

An award announcement will be made later regarding a grant that the College will be receive through the School of Education, Health and Human Performance.
Two-Way Traffic/Pedestrian Safety:

President Benson reported that in recent months, the College has been meeting with Charleston city officials and residents of the downtown neighborhoods to discuss traffic and pedestrian safety issues on streets and sidewalks surrounding the campus, including Coming Street.

The College’s goal is to balance the needs of the campus, the city, and residents, while maintaining safety as the top priority.

Cistern Yard Night-Lighting:

President Benson encouraged everyone to visit the Cistern Yard after dark to see the incredible effect of the new night lighting. This project has significantly enhanced the appearance of the campus.

Steve Osborne briefed the Committee on the status of the Housing RFP. It was issued in November and responses were due by 2:00 p.m. yesterday, Thursday, January 19. The proposals will be evaluated and a recommendation brought to the Board.

The members of the Budget and Finance Committee were given a copy of the FY 2011 Comprehensive Annual Financial Report. A copy of the report is at each Board member’s place. The Executive Secretary to the Board of Trustees will mail copies to those members not in attendance.

Steve Osborne briefed the Committee on the potential benefits of refunding two previous bond series. Based on calculations as of January 13, the combined present value savings for the two series was estimated to be in excess of $3 million. It is anticipated that the bonds will be issued the first week of February.

The Committee agreed on a timeline for the institutional budget process of FY 13. This would include the prioritized annual plan items of the strategic plan which will be identified at the April Board meeting. In May, the Budget and Finance Committee will meet to review a
preliminary budget. They will then have a week (or more if necessary) to review, ask questions, or request additional information. They will then meet again to agree on a final budget to be brought to the full Board at the June meeting.

Steve Osborne updated the Committee on the FY 13 state budget projections, which anticipate a non-recurring surplus of $483 million and a recurring surplus (over the FY 12 base) of $535 million. The College is formulating a request for non-recurring funds for capital needs. Additionally, Steve reported that the Governor’s budget included a 2.3% increase in appropriations for higher education and included accountability/performance based budget metrics for higher education.

The Committee was updated on the additional revenue from the enrollment growth. The additional revenue for the Fall 2011 semester was $2.7 million. Roughly, $1 million of those funds were used, along with $1 million in carryforward funds from the prior fiscal year, to fund the bonuses which were given in November. Additionally, $1.6 million will be carried forward to fund scholarships in the next four years.

Bob Cape has succeeded Tom Trimboli as Chair of the Privacy Committee.

The BATTERY Project is essentially completed, save the implementation of Famis, an application suite from the vendor Accruent that comprises facilities management modules for maintenance, space, and capital projects. By contrast to the BATTERY Project which has steadily been on-schedule and on-budget from the outset three years ago, Famis is encountering significant delays owing to Accruent’s apparent lack of implementation methodology, poor vendor project management, and substantial turnover in staff assigned to the College project. Famis is months behind schedule. College project management, leaders from the several functional offices and IT are all ready and poised to make rapid progress. In addition to trying to work directly with Accruent’s executives for implementation of performance improvements, we have engaged SunGard Higher Education, a Platinum business partner with Accruent, to approach Accruent executive management on our behalf. It is encouraging that the current project manager for Accruent is very skilled, and overall the College remains cautiously optimistic that the Famis project can be made successful. Praise was extended for BATTERY Project success to Priscilla Burbage (Project Manager) and the Executive Steering Committee (Bob Cape, Mike Haskins, George Hynd, Steve Osborne, George Watt and Victor Wilson.)

Recruiting for Information Technology vacant positions remains challenging for Network Engineering and for Data Base Administrators; salaries and benefits for these positions especially are not market-competitive, so multiple failed searches result.

Usage of the Board Portal as a vital means of communication with and among the Trustees is strongly urged. Currently, the Board Portal is sparsely populated with information and is evidently a work-in-process. Higher priority to the Portal by the President’s Office is requested by the Committee. Suggested was a set of individual coaching sessions with each Trustee between now and the April Board meeting, then having a group hands-on practicum at lunch in April. It is recommended that College email accounts for Trustees be discontinued.
The Faculty Education Technology Committee is evolving as active representation of the faculty with respect to information technology at the College, influencing IT as does the BATTERY Team Leads group for administrative application concerns.

The Information Services and Infrastructure departments of IT scored a major accomplishment over the holidays with the long-planned upgrade of the BATTERY data warehouse (ODS) software. Working as a team with experts in India and California, IT staff in Atlanta and here in Charleston worked round the globe and round the clock for hundreds of hours December 21 – 29 (including Christmas Day) to finish successfully.

Most of the 200 College Google accounts are established by the faculty, some by staff. Accounts for the alumni will be made available beginning in February, first to those who currently have Edisto accounts, then to the balance of the alumni. IT is working closely with Jack Huguley of Alumni Affairs who will be communicating the opportunity to the alumni. These Google accounts provide alumni a College email-for-life identity as “…CofC.edu”.

Prominent in the Campus Master Plan Update is the centrality of information technology to the future of the College. A key recommendation in the Update is establishment of a Learning Technology Center building adjacent to Addlestone Library; it would host prototypes of future-oriented classrooms as well as staff to promote strategic infusion of pedagogy-based technology into the curriculum. It was strongly emphasized that the availability of technology-equipped learning rooms must be widespread across the College.

[Meeting resumed at 10:40 a.m.]

**FACILITIES COMMITTEE:**

*Committee members present:* Trustees Jimmy Hightower (chair), Dwight Johnson, Marie Land, Lee Mikell, and Dan Ravenel. *Other Board members present:* Trustee Greg Padgett. *Staff Liaisons present:* Monica Scott (VP for Facilities Planning). *Others present:* Jan Brewton (Director, Business and Auxiliary Services), Priscilla Burbage, John Campbell (Dean, Residence Life and Housing), Bob Cape, Lynn Cherry (Speaker of the Faculty), John Cordray (Director of the Physical Plant), Bev Diamond, Steve Gift (Master Planner, Hanbury Evans Wright and Vlattas), Sam Jones, Scott Miller (Master Planner, Hanbury Evans Wright and Vlattas), Susan Morrison (Professor, Biology Department), Steve Osborne, and Alyson Goff (Executive Assistant, Business Affairs Office).

Trustee Hightower presented the following committee report:

Steve Gift and Scott Miller, Master Planners from Hanbury Evans Wright and Vlattas, presented the final campus master plan that was presented at the Facilities Committee meeting yesterday.

The presentation highlighted the College’s efficient utilization of current space but noted there is a significant deficit. A need for increased technology throughout the campus is necessary,
especially in learning spaces. The master planning team recommended the use of blended learning, which incorporates on-line and in-person learning. The plan recognizes the land and building constraints yet highlights opportunities. The plan is presented in four five-year phases based on College priorities and sequencing requirements.

Trustee Land stated that the plan is creative and exciting. Trustee Ravenel wanted to be sure the College considered “pie-in-the-sky” land sites.

Trustee Mikell stated he was concerned about pedestrian crossing if the campus continues to move across Calhoun Street. Mr. Miller stated that the planning team recommended setting buildings back from the street to allow for sufficient sidewalk space with a possible raised crosswalk from College Way across Calhoun Street. Mr. Gift cited Auburn University as an example. Ms. Scott stated the College needs to be persistent with the City in seeking options to provide safe pedestrian crossings.

Lynn Cherry stated that the faculty has great interest in the proposed Learning Technology Center, but it was strongly noted that technology would have to be increased campus-wide to ensure consistency of teaching spaces.

The motion was made by Trustee Lee Mikell, and seconded by Trustee Dwight Johnson, to adopt the campus master plan. All committee members voted in favor of the motion.

The Facilities Committee moves that the Resolution to approve the Campus Master Plan be approved as presented. Chair Padgett called for the yeas and nays, and the Resolution was unanimously passed by voice vote.
