The Executive Committee met on Wednesday, January 14, and approved the minutes of the September 30, 2014 Executive Committee meeting.

The Committee received brief informational updates on a number of topics, all of which were covered in the President’s Report or will be covered in the various upcoming committee reports.
Chair Daniel called the meeting to order at 9:16 am and noted that the meeting notice had been posted and the press notified in accordance with the Freedom of Information Act.

**Featured Program**
The program featured a report from the Office of Research and Grants Administration, which summarized award activities for the first two quarters of fiscal year 2015. For the current year, the College has received 52 awards so far, with a funding amount in the first two quarters of $6.8 million. Highlights of our activity include a Major Research Instrumentation grant from the National Science Foundation, our third in the past three years, and a U.S. Department of Education multi-year grant for creating talent development academies in disadvantaged schools. Undergraduate research support is being funded by a new grant from the National Science Foundation and the Howard Hughes Medical Institutes.

Chair Daniel then turned the floor over to Brian McGee for the Provost’s Report.

**Provost’s Report**
- President McConnell and the Interim Provost are working to find a replacement for Penny Brunner, our former Associate Vice President for Institutional Effectiveness and Strategic Planning. Dr. Brunner left the College recently to take a similar position at Clemson. Brian McGee will be the Interim SACSCOC Institutional Liaison until a replacement for Brunner is named.
- The College is now studying the cost structure of the six academic schools and is considering whether a school fee should be contemplated for our two highest cost schools. Such a fee could be phased in over multiple years. The fees used at USC Columbia and Clemson were described.
- A new book has been selected for the College Reads! Program for the next academic year, which focused on the role of university students in Mississippi’s Freedom Summer of 1963. McGee expressed appreciation for all the students, faculty, staff, and administrators who
contributed to the screening process for this selection, which McGee has now approved, consistent with the previously announced approval procedure.

- McGee provided summaries of the official establishment of the School of Professional Studies, consideration of possible future changes in our December Commencement, changes to the Faculty/Administration Manual, and our cybersecurity program.

Action Items
- The Committee unanimously approved the minutes from the January meeting.

- The Committee unanimously passed the Resolution to approve the Master of Fine Arts (MFA) in Creative Writing. This MFA program would capitalize on the strength of our creative writing faculty, meet a community demand, and be revenue-positive after two years. The program also would be an important next step for the University of Charleston, South Carolina, and our research mission, as the MFA would be the College’s first terminal degree program at the graduate level.

The Academic Affairs Committee moves that the Resolution to approve the Master of Fine Arts (MFA) in Creative Writing be adopted as presented. The Chair called for the yeas and nays, and the following Resolution was unanimously approved by voice vote.

Mr. Hull noted that no decisions have been made, but he has asked for input from all head coaches and is waiting to see how similar schools address the issue.

**AUDIT COMMITTEE:**

**Committee members present:** Trustees Don Belk and Joe Thompson

**Committee members participating by conference call:** Trustee John Wood

**Committee members absent:** Trustee Henrietta Golding

**Others present:** Priscilla Burbage (VP of Fiscal Services), Beverly Diamond (Senior Vice Provost), Gail Long (Internal Auditor), Brian McGee (Interim Provost/Executive VP for Academic Affairs), Steve Osborne (Executive VP, Business Affairs), Sarina Russotto (Director of Policy and Compliance), Katie Walker (Interim General Counsel), and Dawn Willan (Controller). George Kennedy and Lindsay Ball from Elliott Davis attended the meeting as well.

Chair Thompson called the meeting to order noting that the meeting notice has been posted and the press notified as required by the Freedom of Information Act.

George Kennedy, a shareholder from our external auditing firm, Elliott Davis, gave a report related to their findings of the 2013-2014 fiscal year-end audits. Unmodified opinions were issued on the CAFR (Comprehensive Annual Financial Report), the OMB Circular A-133 and NCAA reports.

Mr. Kennedy also gave an overview of GASB 68, Accounting and Financial Reporting for Pensions which will affect the College’s June 30, 2015 financial statements. Currently, net pension liability reporting is not required at the agency level. With the implementation of GASB 68, the College and other participating cost-sharing governments will report their proportionate share of this unfunded liability in its own financial statements.

Brian McGee presented two potential revisions to the existing ethics policy. The first relates to data review and signature attestation of data that is reported to state, federal and other regulatory agencies. The President and Provost will be responsible for certification of student data.

Secondly, Governor Haley’s office is developing a model code of conduct that agencies can follow. The Office of Legal Affairs will review our ethics policy and ensure that it aligns with the state model.
Chair Mikell presented the following committee report:

Steve Osborne updated the Committee on several capital projects which will be covered in the Facilities Committee report.

The members of the Budget and Finance Committee were given a copy of the FY 2014 Comprehensive Annual Financial Report. A copy of the report is at each Board member’s place. [The Executive Secretary to the Board of Trustees will mail copies to those Board members not in attendance.]

Steve briefed the Committee on the Series 2014A bond issue. The proceeds will be used to fund the renovation of the Rita Liddy Hollings Science Center. The bonds were sold in November and closed on December 4. Wells Fargo was the winning bidder. The bonds, $54,255,000, were sold at a TIC (true interest cost) of 3.795%. This is the lowest interest rate that the College has received on any of the original bond issues. Only a couple of the refunding issues, which have a shorter maturity, have been issued at lower rates.

Steve updated the Committee on a timeline for the institutional budget process for FY 16. This will include the prioritized annual plan items which will be identified at the April Board meeting. On May 20, the Budget and Finance Committee will meet in a budget workshop to review a preliminary budget. On June 5, they will meet again to agree on a final budget to be presented to the full Board at its June 15 meeting.

Steve updated the Committee on the state budget. In November, the S.C. Revenue and Fiscal Affairs Office projected a non-recurring ($166.6 million) surplus for the fiscal year ending June 30, 2015, and new recurring revenue for FY 15-16 of $287.6 million. President McConnell appeared before the Higher Education and Technical Colleges Subcommittee of the House Ways and Means Committee on Wednesday, January 21. The College presented a 65-page presentation in response to information requested by the Subcommittee. It included the College’s request for $2 million in recurring state funding for the Computer Science Program, and $750,000 in recurring state funding...
for Supply Chain Management. Additionally, there was a request for 32 FTE positions; and non-recurring funds for capital needs of $5 million for the Simons Center for the Arts renovation.

Steve briefed the Committee on the issue of school fees, which had been discussed in the Academic Affairs Committee meeting earlier. The administration is evaluating the possibility of school specific fees and will likely bring a proposal to the Board in concert with the budget discussions.

Steve informed the Committee that the College is scheduling a meeting with Fitch Ratings to explore the possibility of getting a second bond rating. The College is currently rated by Moody’s Investors Services as A1.

Sam Jones reviewed the budget adjustments reflected through December 31, 2014. The Budget and Finance Committee moves that the resolution to approve the budget adjustments for the quarter ended December 31, 2014 be approved as presented behind the Budget and Finance Committee tab. The Chair called for the yeas and nays, and the following Resolution was unanimously approved by voice vote.

INFORMATION TECHNOLOGY COMMITTEE:
Committee members present: Trustees Frank Gadsden (chair), Cherry Daniel, Renee Goldfinch, and Eddie Thomas
Committee members absent: Trustee Pansy King-Reid
Staff Liaison present: Bob Cape, Senior VP for Information Technology/CIO
Others present: Deanna Caveney-Noecker (Assistant Provost), David Desplaces (Chair, Faculty Education Technology Committee), Amy Orr (Co-Chair, Staff Advisory Committee to the President), and Joyce Wilson (Executive Assistant to Bob Cape).

Trustee Gadsden presented the following Committee report.

The meeting was called to order January 29, 2015 in Beatty 201 at 3:45 PM by Chair Gadsden; adjournment was at 4:49PM. Minutes of the October 16, 2014 IT Committee meeting were approved.
Bob Cape reported that the Business Continuity Task Force of the IT Strategic Advisory Committee has established top priorities for mission-critical IT functionality to be sustained during and beyond a hypothetical three-week outage of the Data Center due to a hurricane: (1) email for faculty and staff communications; (2) OAKS, the College learning management system, to allow faculty to continue class instruction, lest the entire semester and related revenue be lost; and (3) a nucleus Banner system to allow up to twenty persons to conduct truly urgent College transactions and produce reports. IT is now developing project plans and corresponding budget requests to address these business continuity priorities. Emphasis on “cloud” solutions is anticipated, both for business continuity and also to affirm strategic direction for College information systems as feasible.

The Academic Research Network (ARN) Project Charter was distributed and briefly summarized. The project is being designed by IT to facilitate research at the College by addressing the distinctive needs of research for server and networking.

A second research-related effort of IT is collaboration with Dean Mike Auerbach to establish better support for Geographic Information Systems (GIS)—an application that now is a critical success factor for several research projects across multiple Schools, classwork, and some important work in staff departments, for example Public Safety. Needed is a GIS Application Administrator to manage the shared GIS application and to help research staff to best utilize all its capabilities.

BoardEffect is the name of the new board management software, selected to meet the needs of the Trustees at a most economical cost. Many implementation questions now need to be addressed. The IT Committee expressed strong support and also willingness to “go first” in the training and adoption of BoardEffect. It will be in full effect by late in 2015.

Classroom technology upgrades are ahead of schedule with 28 rooms to be completed in FY15. The effects of renovating classrooms as part of capital projects (Rita Hollings, for example) will somewhat shorten the nominal ten year cycle of classroom technology refreshment. More careful analysis will be presented in the next meeting. Also of note, IT is reversing in its decision to not install chalkboards in classrooms with technology. Data has shown increased cost and increased outages and inconvenience for faculty and students attributable to chalk dust in electronics. There are several alternatives to chalkboards such as whiteboards, idea paint, and so on. However, the concept of pedagogy trumping technology is unassailable so when updating classrooms IT will, upon faculty request, provide chalkboards in rooms with technology.

Cyber insurance for the College is now in effect. The provider is Beazley. While we take strong measures to combat malware, prevent data incidents, and refine our incident response plan, no enterprise is immune and it is wise to make financial preparations for an adverse incident.

Yammer is a Microsoft enterprise social networking product that is recommended by IT to IT governance to replace our current set of listservs and forums. The Faculty Education Technology Committee has endorsed Yammer and led discussion of Yammer at a recent Faculty Senate meeting; the Staff Advisory Committee to the President is discussing endorsement. The goal is to secure Executive Steering Committee approval, then prepare a project plan for implementation of Yammer.

Following an intensive communication effort, IT is now quarantining email containing SSNs and credit card numbers as the next step in our Data Loss Prevention (DLP) initiative. This reduces both personal and institutional risks of exposing data.
Results of the Fall 2014 Tech-Qual+ survey of satisfaction with IT services were shared. Survey response relative to a year ago was down significantly, especially for students, due in part to our inability to offer an incentive to complete the survey. For the first time we compared our ratings with those of peer institutions completing the identical survey: happily, ratings for College IT exceeded those of our peers in 12 of the 13 categories.

INSTITUTIONAL ADVANCEMENT COMMITTEE:
